B92

Saint Etienne

Rock could be so good
But we make it all so rubbishySignal's down and the men are searching this quarter
Power's gone and we got no heat and no waterBut we're the salmon against the tide
You better get ready when the sounds arrive
Because the boys are back in town
And nothing can stop us now
Ooh, this is our wall of soundHate and fear are taking over this city
But they'll never get through when the records are sounding so pretty'Cause we're the salmon against the tide
Gotta get a line to the world outside
To play the boys are back in town
And nothing can stop us now
Ooh, this is our wall of soundBut we're the salmon against the tide
You better get ready when the sounds arrive
Because the boys are back in town
And nothing can stop us now
Ooh, this is our wall of soundOoh, this is our wall of sound
Ooh, this is our wall of sound
Ooh, this is our wall of sound
