NR: Mind Focus.. Staying Mind Focused in the Game! //

BH: Haters Out my freaking way! // I'm not hearing what you say! //

BH: My hands together to pray // So your bitching fade away! //

NR: Mind Focus.. Staying Mind Focused in the Game! //

NR: Mind Focus.. Staying Mind Focused in the Game! //

BH: I'm going way up on my rise // Aiming straight for the prize //

BH: Dreams reaching for the sky // Mind focused till I die! //

[Verse #1: Nili Reyy]

I've spent my whole life running trying to get to this point //

Life time spent with passion why because that is my choice //

I aint never let my girlfriends dictate to me a choice //

So I stay mind focus this profession of my voice..

It keeps me strong //

keeps me paid //

It keeps me fed //

And without it in my life I bet I'd probably be dead.. //

Cause I live music //

Breath music //

Talk Music //

Live it //

No matter where it goes I promise I'm going with it //

I never thought I'd miss it being homeless in the streets //

Never mind scratch that //

Why!... Cause music was right next to me //

And it's going to be a outcome more bigger than you see //

It's gone be more sensational then sex ever could be //

I've seen what its come down to I'm learning to be patient //

But I don't sit around allowing time to be wasted //

So its nonstop working no playing..

Even though I'm at the bottom I still stay motivated //

[Verse #1: Bryce Houston]

Yo Yea.. Back when I was age six //

I discovered this rap music and my heart saved it //

Internally..

Cause I was getting bullied by some lame pricks //

And now other rappers thinking they can do the same shit? //

Fuck Y'all!

And the raps about to sway kicks //

I'm knocking at your door and making the roof cave in //

I hate what y'all saying 'm calling y'all Katlyn //

I look at you I promise I see nothing but a fake bitch //

Wanna make music to save lives //

I'd be lying if I said that it didn't save mine //

In time it's something that is promised to always run out //

When a kid who got bullied decides to go pull the gun out //

Real life ain't you fun now //

Seeing the parents all strung out //

And this rhythm is the only light to shine when the suns down //

So me..

Il decide to put it on into this music //

No matter the way I do it //

Success is what I am choosing //

Bryce Houston..
