Gonna Be My Baby

Double You

Gonna be my baby
You have got to love someone
Gonna be my lover
Girl I'm telling everyone
Gonna be my baby
I can't treat you like a friend
I can't treat you like a friend
Thank you for the love
And then I wanna say
Thank you for the dream
I wanna get away
Thank you for your help
And now I wanna stay
Thank you for the love
Thank you for the love
Gimme hope and gimme shelter
That I have lost along the road
Hand in hand we'll walk together
And you know you're not alone
Thank you for the time, greatful it will be
Thank you for the life you spent with me
Welcome to my dream and I wanna say
Thank you for the love
Thank you for the love
