

# When The Wheels Are Coming Off

[Lee Ann Womack](#)

We started down this road, together  
It was paved with hope and dreams of forever  
We've been coasting for a while  
And you act like nothing's wrong  
But even I can tell when the wheels are comin' off  
What isn't taken care of falls apart  
Now we've got a pair of neglected broken hearts  
We may get another mile or two before somebody walks  
But even I can tell when the wheels are coming off  
You've got to help me fix this, it's time to face the facts  
We can't go on like we have been and it's too late for turnin' back  
When it comes down to what makes love work I'll admit I'm lost  
But even I can tell when the wheels are comin' off  
You've gonna help me fix this, it's time to face the facts  
We can't go on like we have been and it's too late for turnin' back  
When it comes down to what makes love work I'll admit I'm lost  
But even I can tell when the wheels are comin' off  
When it comes down to what makes love work I'll admit I'm lost  
But even I can tell when the wheels are comin' off
