

Hey Hey

Radiator

Oh oh wuh oh oh oh
Oh oh wuh oh oh oh
Oh oh wuh oh oh oh
Oh oh wuh oh oh oh
Oh oh wuh oh oh oh
Oh oh wuh oh oh oh Nothing's going right
All your dreams look like they die
Love goes out your door
As he did the night before Still it's not the end
Turn the pages once again
Baby, hold your tears
Is a happy ending near? Don't give up tonight, hey hey
You still have some time, hey hey
Maybe something happens after all Oh oh oh Don't give up your chance, hey hey
Don't refuse the dance, hey hey
Keep your head up, baby
You won't fall Do not look too far
He can mend your broken heart
You ask what is wrong
Wonder what will turn him on Now he's gone away
But tomorrow's not today
Baby, you can't tell
Maybe everything goes well Don't give up tonight, hey hey
You still have some time, hey hey
Maybe something happens after all Oh oh oh Don't give up your chance, hey hey
Don't refuse the dance, hey hey
Keep your head up, baby
You won't fall Get up, get up
Your spirit speeded higher
Get up, get up
Your sky is going to shine Get up, get up
Just follow desire
Get up, get up
Girl, love is on your mind Don't give up tonight, hey hey
You still have some time, hey hey
Maybe something happens after all Oh oh oh Don't give up your chance, hey hey
Don't refuse the dance, hey hey
Keep your head up, baby
You won't fall Get up, get up

Your spirit speeded higher
Get up, get up
Your sky is going to shineGet up, get up
Just follow desire
Get up, get up
Girl, love is on your mindBaby, you know love
Happens suddenly
Just be there when it comes
Sing love songs to me
Play this melody
He will listen tonight
