Outside Your Body

Amerie

Love, lust, that first kiss,
These are the things no one wants to miss,
Time flies faster still,
But tell me if it's real
Cause I know a place where we can go to,
If we leave now we'll get there fast,
Promise before the night is over,
Your gonna live like it's your last!
Chorus:
Let's go to London town, Paris yeah
Tell me where you want to go,
Let me take you to London town and Paris yeah, Tokyo and Seoul
(gaiji gayo gaiji gayo)
Baby let's go, baby let's go (outside your body)
(gaiji gayo, gaiji gayo)
Baby let's go, get outside your body,
Just get outside your body,
Get outside your body,
Get outside your body,
Get outside your body
Hate, pain, jealousy, hedonistic culture,
Discontent breeds envy, they'll throw you to the vultures,
But I know a place where we can go to,
If we leave now we'll get there fast,
Promise before the night is over,
You gonna live like it's your last!
I'm talking about:

Chorus:
London town, Paris yeah,
Tell me where you want to go!
Let me take you to London town and Paris yeah, Tokyo and Seoul
(gaiji gayo gaiji gayo)
Baby let's go, baby let's go (outside your body).
(gaiji gayo, gaiji gayo)
Baby let's go, just get outside your body,
Just get outside your body,
Get outside your body,
Get outside your body,

Get outside your body
Everything is beautiful,
(Outside your body)
Anywhere you wanna go,
You only have until infinity,
Chorus:
Let's go to London town, Paris yeah,
Tell me where you want to go,
Let me take you to London town and Paris yeah, Tokyo and Seoul
(gaiji gayo, gaiji gayo)
Baby let's go, baby let's go (outside your body)
(gaiji gayo, gaiji gayo)
Baby let's go, just get outside your body,
Just get outside your body,
Get outside your body,
Get outside your body,
Get outside your body
