One More Chance

Saliva

One more chance to write the book
And one more chance to take the stage
One more chance to set the hook
And one more chance to turn the pages
One more chance to get it right
And one more chance to right the wrongs
One more chance to make it tight
And one more chance to write the songs
Everybody say, one situation we're in
Don't you know, don't you wanna come with me?
Don't you know, don't you wanna come with me?
One more destination we may never see until, until we
Rise again as we reach up to the sun
We will try again until this race is won
Give me one more chance
One more chance to feel alive
And one more chance to wind up dead
One more chance to climb so high
One more chance to bust my head
One more chance to get on top
And one more chance to make a change
One more chance for shit to give
It's one more chance to even the blame
And everybody say, one situation we're in
Don't you know, don't you wanna come with me?
Don't you know, don't you wanna come with me?
One more destination we may never see until, until we
Rise again as we reach up to the sun
We will try again until this race is won
Give me one more chance
Rise again as we reach up to the sun
We will try again until this race is won
Give me one more chance
Rise again as we reach up to the sun
(One more chance to write the book)
(One more chance to take the stage)
(One more chance to set the hook)
(One more chance to turn the pages)
We will try again until this race is won

(One more chance to get it right)
(One more chance to right the wrongs)
(One more chance to make it tight)
(One more chance to write the songs)
One more chance
