

# Opelwerk

## Zeromancer

Staring at the white walls  
It feels good when the sun don't shine  
Two of a kind but there are times  
You're not listening to me Nail you to the floor  
Your hands are going numb  
Put out the candles plastered to your skin  
It's only for tonight When everyone's asleep  
Frustration comes to me  
Like talking to a machine  
It's only in your dreams Bring me down, bring me down  
My eyes adjust to the light  
My eyes adjust to the night Tonight when everyone's asleep  
Frustration cuts too deep  
Like talking to a machine  
It's only in your Tonight, if only it's alright  
It's only for tonight  
If only it's alright, yeah
