Never Change

Eartha

Times change, seasons change, people change their minds
But I know someone who stays the same
Constant in changing times, Hell never change
He remains the sameAnd though the world should change
He remains unfaltering, immortal and ever true,
Faithful to His word and He never fails to fulfill his promises
And brings to fruition the vision that He places
Within the hearts of menSecret things belong to God;
Who can know His heart?
Who can find Him out?
In and of His glory, Hes quite a mystery
Greatest controversy weve ever seen
Never changing, He is reigning sovereign
None else like Him, one should seek to find HimAs with prophets of old, visions unfold before us
He speaks still, He reveals Himself, He hasnt changed
And He never will, Hell never change
In Him there is no shadow of turning, only faithfulness
And who He was a million years ago,
He was on yesterday and shall ever beHes Alpha, Omega Hes the beginning and Hes the ending
(and every episode)
What a sight to behold
Oh, the depth of His person, His creation, manifestation
Who can know?The heavens of heavens cannot contain Him
Yet He still saw fit to dwell among men
Before his creation, He stands ageless;
Unlike four seasons, Hes never changing. Hell never change.
