

Make Me Happy

Alannah Myles

Nothin' in your pocket
Something up your sleeve
Look right at my alley
Coming down my street Gun goes off at midnight
Whistle blows at dawn
Give me half the morning
And we'll carry on Straight from your hip
Make a backbone slip
Right in front of my eyes
Like a sweet surprise, hey, hey, hey, yeah Bet you're gonna find a little foolin' on your mind
Soon you're gonna feel a little tuggin' on your line
Bet you're gonna be a little nervous boy
Run for cover and jump for joy You make me happy
Without even trying
You make me happy
Every time, oh yeah Gotta roll with the punch
Stagger with the kiss
Follow what you feel
On a night like this Gotta raise up the flag
Holler in the street
Someone's throwing roses
All around your feet Straight from your lips
You're gonna let it slip
It's there in your eyes
So don't apologize, hey, hey, hey, yeah Bet you're gonna find a little foolin' on your mind
Soon you're gonna feel a little tuggin' on your line
Bet you're gonna be a little nervous boy
Run for cover and jump for joy You make me happy
Without even trying
You make me happy
Every time, oh yeah Hey, hey, hey, yeah
Bet you're gonna find a little foolin' on your mind
Soon you're gonna feel a little tuggin' on your line
Bet you're gonna be a little nervous boy, oh You make me happy
Every time
You make me happy
Without even trying You make me happy
Every time, oh yeah Baby, happy, happy
Happy, happy

Happy, happy
Happy, happy
You make me
