

# Life (Indigo's Tech Rework)

[Ferry Corsten](#)

This is how our lives are meant to be  
When only love, not hate, is all we see But what is life supposed to really mean?  
If you're far away, not here with me! This is how our lives are meant to be  
When only love, not hate, is all we see But what is life supposed to really mean?  
If you're far away, not here with me!
