2RAK005

Bracket

I hope you don know my name
It just wouldn be the sameI confused about all the things I do
Cause nothing that I say is trueAnd if I tell a lie
please be my alibi
I wanna make beleive it real
That just the way I feel
There nothing left to fabricate
Did I mention that Elvis is alive?I hide my identity
Truth is my worst enemyI just can help fooling myself
This time
