

# Stalemate

## Stone Sour

If I fail, if I fall  
If I can't be free then I never was it all  
The more I fight I stay the same  
Where do I go and what do I do  
I'll never know if I never get through  
The more I fight I stay  
THE SAME!  
God, I love excuses  
Nothing better than a homemade lie  
New rules and old confusion  
Won't you just despise  
Out of my way, out of my reach  
How do you dream if you still can't sleep  
My mind is a terrible gift  
And I'd rather be numb than feel this way  
Gone home with a metal that's broken  
Another thief that does not overthink  
Dark voice when the moment is golden  
I won't leave this glee  
If I fail, if I fall  
If I can't be free then I never was it all  
The more I fight I stay the same  
Where do I go and what do I do  
I'll never know if I never get through  
The more I fight I stay the same  
Half my time and one protection  
This is better than a biggest stand  
New shoes and old direction  
  
The aftermath of man  
Killing my name, killing my past  
Nothing's left when nothing lasts  
My life is a terrible waste  
And I'm going down fast  
If I fail, if I fall  
If I can't be free then I never was it all  
the more I fight I stay the same  
Where do I go and what do I do  
I'll never know if I never get through

The more I fight I stay the same  
Well don't be so distracted  
I can tell you where the story ends  
New sins and old abuses  
And no one wins again  
This is my chance, this is my curse  
We all know it will only get worse  
My hell is a terrible case  
But I get here while I'm here first  
If I fail, if I fall  
If I can't be free then I never was it all  
The more I fight I stay the same  
If I still, if I stall  
If I can't be hurt then I never even call  
The more I fight I stay the same  
Where do I go and what do I do  
The very part scares the hell out of you  
The more I fight I stay the same  
If I fail, If I fall, If I know, If I care it all  
The more I fight I stay the same
