

# Go

## Ozone Mama

Start again, despite my legs are frozen  
Kickin' off the shoes I'm wearin', now the  
Wind of change has just started blowin'  
Pick myself up and gotta keep on movin' - GO  
Back again, my heart is on fire  
Let's take a walk on road we rarely step upon  
I'm about to start L-O-V-E revolution  
(All) I need from you (is) to give me ammunition  
I need more juice to start it  
I have got and itch to make it happen  
This is the way, this is the time  
This is how I'm going with my crowd  
Give you today a freedom-song to take the pain away  
Now I'm ready, ready to GO!  
They robbed me of my bleeding heart  
Smashing all my dreams, they tore them all apart  
Like dead dog in the dreaded house  
It's time to wake up and realize  
I need more juice to start it  
I have got and itch to make it happen  
This is the way, this is the time  
This is how I'm going with my crowd  
Give you today a freedom-song to take the pain away  
Are you ready, ready to GO!  
Keep on - keep on keepin' on! ---- Are you ready to go?  
This is the way, this is the time  
This is how I'm going with my crowd  
Give you today a freedom-song to take the pain away  
This is the way, this is the time  
This is how I'm going with my crowd  
Give you today a freedom-song to ease your pain  
I need more juice to keep it  
I have got and itch to make it  
All your strength I need to keep it  
All my will to make it happen - Are you ---- ready to GO!
