

# Sinfony 23

## Down Below

Lets refill your forces with new energy  
Use all your resources and follow me  
Break down old borders, take the missing files  
Ready for transfer log in and dialWelcome to your sinfony, sinfony 23  
And all the devils and angels are chasing us  
But in the end we will be freeWelcome to your destiny, destiny 23  
And all the demons and angels are watching us  
But in the end we will be free, we will be freeHere comes the new trip behind ecstasy  
Neon kind of friendship, neon reality  
Break down your borders, use loaded files  
End of transfer, enter exfileWelcome to your sinfony, sinfony 23  
And all the devils and angels are chasing us  
But in the end we will be freeWelcome to your destiny, destiny 23  
And all the demons and angels are watching us  
But in the end we will be free, we will be freeThe angels are watching us  
The demons are chasing us  
The angels are watching us  
The demons are chasing usWelcome to your sinfony, sinfony 23  
And all the devils and angels are chasing us  
But in the end we will be freeWelcome to your destiny, destiny 23  
And all the demons and angels are watching us  
But in the end, in the end we will be free  
We will be free
