All In My Head

Katie Melua

Every night we fall into bed
But its all in my head
Every night we fall in a heap
And you kiss me to sleepAnd baby, all the sleepy things you say
Blow me away til the next day
When I find what we did and we said
Was all in my headEvery night you whisper to me
This always will be
Every night you smooth down my hair
But youre not really thereAnd darling, it seems as if we know
Our love will grow, then the next day
I find what we did and we said
It was all in my headDrowsy, drinking, I keep thinking
Were not far apart
Scared of waking, lonely, aching
Just me and my hopeless heartSleeping soundly, your arms round me
Through the night we cruise
Then I found its in my mind
That you stroke away my bluesEvery night we fall into bed
But its all in my head
Every night we fall in a heap
And you kiss me to sleepAnd baby, all the sleepy things you say
Blow me away til the next day
When I find what we did and we said
It was all in my head
It was all in my head
It was all in my head
