

# Save the Night

## Jazzamor

A little trouble in the city  
Trouble in my home  
She told me love don't live here anymore  
I wanna run to the light  
It's too dark in this part of night  
I need somebody who can make it right

And it's on tonight  
How about we go and save the night  
I can see you want it and so do I  
How about we go and save the night  
Let's save the night

I'm not a one man band  
I want to sing a duet  
You and me would sound much better  
You look so good in my bed  
And if your gonna go out  
Your gonna go on with a bang  
Let's save the night I'll be your superman

And it's on tonight  
How about we go and save the night  
I can see you want it and so do I  
How about we go and save the night  
Let's save the night

I see the night flashing before her eyes  
Resuscitating bring it back to life

And it's on tonight  
How about we go and save the night  
I can see you want it and so do I  
How about we go and save the night  
Let's save the night

Oh, let's save the night  
Let's save the night
