

# Everyday

## Future Leaders Of The World

Trust in me it's not a fantasy  
Know we're right and they're all wrong  
We used to push and pull weed, get high till we bleed  
Tune out the world and just sing our song  
If you're all so right why you gotta fight  
Kill unite for so long  
Why should I ever compromise what you could never realize  
So I'm afraid to be your own in  
Inside of each death the days new breath  
A test to defy itself again, while whispering sounds  
Educate towns propagating new ways to feel  
In the lost and found I've found pounds  
Treasures through these desperate measures  
The social leathers just let me feel  
If I could eat the eyes of heaven  
See you through the darkest nights  
Wake up and try not to deny  
Who am I stoned everyday, yeah  
Everyday, everyday, everyday  
So kids come watch the news  
You'll learn to lose like a winner  
Get you prescriptions filled I'll be the sinner for your appetite

To consume for a beggars wealth  
Inside of each death the days new breath  
A test to defy itself again, while whispering sounds  
Educate towns propagating new ways to feel  
In the lost and found I've found pounds  
Treasures through these desperate measures  
The social leathers just let me feel  
If I could eat the eyes of heaven  
See you through the darkest nights  
Wake up and try not to deny  
Who am I stoned everyday, yeah  
Days go by while they sell us lies  
But I will try everyday  
No I won't compromise while they sell us lies  
I will try give up everyday  
If I could eat the eyes of heaven

See you through the darkest nights  
Wake up and try not to deny  
Who am I stoned everyday, yeah  
Everyday, everyday, everyday, everyday
