troubles with the flowers problems in the mainland  
all these conversations make me want to go mad  
and go wild, to be wild  
and go wild, for a whilebuilding all this tension  
pinching all the nerves down  
need to pay attention  
focus on you own plan  
parole is over now, you can step outside  
i think i want to start a fight  
and go wild, to be wild  
and go wild, for a while  
and i'll destroy the fire desires the gun  
and i'll destroy the fire desires the gun  
troubles with the flowers problems in the mainland  
all these conversations make me want to go mad  
and go wild to be wild  
and go wild for a while  
and i'll destroy the fire desires the gun  
and i'll destroy the fire desires the gun
