

# Forget You All the Time

## Cloud Nothings

I'm alright  
I just forget you all the time  
You were right  
I should have given you a sign  
Talk at all  
You never talk enough with me  
Moving on  
You might not know enough of me Well I know just what you need  
But I forgot everything  
Cause I don't know how to sing  
But I can care enough to learn  
Well I know just what you need  
But I forgot everything  
Cause I don't know how to sing  
But I can care enough to learn I'm alright  
I just forget you all the time  
You were right  
I should have given you a sign  
Talk at all  
You never talk enough with me  
Moving on  
You might not know enough of me Well I know just what you need  
But I forgot everything  
Cause I don't know how to sing  
But I can care enough to learn  
Well I know just what you need  
But I forgot everything  
Cause I don't know how to sing  
But I can care enough to learn
