

How About That

Bad Company

Hey last night, when the moon was new
I couldn't sleep, I was thinkin' of you
And how much I need ya, how about that? Hey, I act like I'm tougher than steel
With a heart like a stone, but you know it ain't real
I need you baby, how about that? Hey Ooh, how about that? I used to spend my life on the town
It took your lovin' to turn me around
I'm crazy about you, how about that? Yeah, people used to tell ya I'm a crazy fool
But you taught me more than I could learn in school
I say I really need ya, baby, how about that? Yeah if ever you need time and space
Don't run away, just tell me face to face, yeah Ooh, how about that? How 'bout that?
Ooh, how about that? Baby
Ooh, how about that? Yeah alright, oh baby Yeah, when I think back of how it used to be
Before we met it's just a mystery
I can't live without you, no, how about that? Yeah, you got my heart and you got my soul
Ooh you got my whole life under control
Looks like we made it, yeah, how about that? Ooh yeah And every time I see your face
It lightens up the whole damn place
Yeah, I wanna see this whole thing through
Yeah, there's nothing I won't do for you, oh yeah Ooh, how about that? How 'bout it, baby?
Ooh, how about that? Yeah, t-tell me
Ooh, how about that? How 'bout it, baby? Ooh yeah Last night, when the moon was new
I couldn't sleep, I was there, lookin' at you
Yeah I'm glad that I found you, how about that? Hey every time I see your face
It lightens up the whole damn place
Yeah, I wanna see this whole thing through
Yeah, I wanna spend my life with you, oh yeah Ooh, how about that? Hey, how 'bout it baby?
Ooh, how about that? T-tell me
Ooh, how about that? Tell me baby
Ooh, how about that? Baby yeah Ooh, hey how about that?
How about that, how about it baby?
Ooh, yeah how about that? Oh, oh
Ooh, how about that?
