

# Promise Kept

## Donkeyboy

Compensation for what I've done  
Well I don't know if that is what you want  
It's getting difficult to breath  
But I keep my head held high Will I be myself again?  
Will my heart beat in the end? Should you find life OK?  
Always on time control  
With you  
Everything plays along Can you please forgive me  
Now that I know I've been wrong  
Alone I cannot conquer the earth  
Alone I cannot conquer the earth Should you find life OK?  
Always on time control  
With you  
Everything plays along Should you find life OK?  
Always on time control  
With you  
Everything plays along
