Down and Out

The Griswolds

"Down And Out"Down and Out
I hit the poison
I'm not proud about
Some of my choices nowEva, I could never wear your crown
I feel that I would only let you down
Please, I pray, you get better
But there's no hope in my mindDown and Out
I hit the poison
I'm not proud about
Some of my choices nowEva, I could only watch you drown
The fevers were enough to bring you down
I pretend you got better
Just for some peace of mindYou will never have to know
How much I've changed since you've been gone
You'll never have to know that I wasDown and out, you hit the poison and I'm...Down and Out
I hit the poison
I'm not proud about
Some of my choices now
