

Paparazzi

Falling In Reverse

S.E.L.L M.Y. S.O.U.L

Yo, heres another song for the kids to sing to
The same four chords, its another hit single
The radio station plays the same three tracks
Thats nine whole minutes that well never get back So get up, get out

Come on, come on

We don't wanna hear the same old song
So delete your playlist, if it aint the greatest
Start something contagious La la la la la la

I guess we're desperate

Na na na na na na na

For a radio hit

Paparazzi, please snapshot me

'Cause I'm just a bad boy, made for the tabloids

I need my big break before its too late

'Cause I'm a little bit shameless

Just wanna be famous Now we're steady making progress and its hard to stop it

We got our tee shirts in the mall's Hot Topic

Warped Tour famous and the band's devotion

Walking toward's like we're in slow motion So get up, get out

Come on, come on

We finally got what we fucking want
So delete your playlist, if it aint the greatest
Start something contagious La la la la la la

I guess we're desperate

Na na na na na na na

For a radio hit

Paparazzi, please snapshot me

'Cause I'm just a bad boy, made for the tabloids

I need my big break before its too late

'Cause I'm a little bit shameless

Just wanna be famous The future sucks as we know

We watch reality shows

We never leave our homes

We're glued to our phones

The future's making me sick

We post the same damn pics

What the fuck's a selfie stick?

We're always talking shit

Hahahaha

Fuck you! I wish the best for you

I want to be famous I wish the best for you

I want to be famous I wish the best for you

I want to be famous Paparazzi, please snapshot me

'Cause I'm just a bad boy, made for the tabloids

I need my big break before it's too late

'Cause I'm a little bit shameless

Just wanna be famous La la la la la la Thank you, thank you very much
