

Gonna Die Young

Dierks Bentley

I can feel my heart beatin' now
 Beatin' like a pop gun pow
Gone crazy knocked down by the hottest thing on this side of the sun
 She knows just how to move
Shoot the blood pressure through the roof
 Foggin' up the kissin' booth
 She's one in a million
 I'm a million to one
Hot dang honey like poison
 Oh, my I'm gonna die
Send my soul to the bye and bye
 Can't breathe
I'm gonna be pushin' up a dizzy before the old gets me
 She's so fine
 Matter of time
 Sooner and later gonna flat line
The way she moves me probably gonna die young
The way she moves me probably gonna die young
 Yeah, Yeah
Tick, Tock and the world turns round
 There's only one way out
All I know is since you came to town
It's a fast forward baby on a merry go 'round
Gotta a hearse on my tail and he's wavin' me down
 Oh, my I'm gonna die
Send my soul to the bye and bye
 Can't breathe
I'm gonna be pushin' up a dizzy before the old gets me
 She's so fine
 Matter of time
 Sooner and later gonna flat line
The way she moves me probably gonna die young
The way she moves me probably gonna die young
 Oh, come on
 You're killin' me girl
 Feels good
 Oh my I'm gonna die
Send my soul to the bye and bye
Hot little angels gonna watch me fly

Oh, my I'm gonna die
Send my soul to the bye and bye
Can't breathe
I'm gonna be pushin' up a dizzy before the old gets me
She's so fine
Matter of time
Sooner and later gonna flat line
The way she moves me probably gonna die young
The way she moves me probably gonna die young
The way she moves me probably gonna die young
The way she moves me probably gonna die young, Yeah, Yeah
Oh, The ways she moves me probably gonna die young
