

# Promised To John (With Anita Carter)

[Hank Snow](#)

I'm promised to John promised to John  
Can't you see that I'm promised to John I saw her on the square and I fell in love right there  
Though I was told she was promised to John  
I followed her in a store and I loved her even more  
Though I knew she was promised to John I'm promised to John promised to John  
Don't you know I'm promised to John  
And his heart would surely break if I made this mistake  
Can't you see that I'm promised to John I said let's take a walk someplace where we can talk  
Yes I know that you're promised to John  
It won't hurt anyone we'll just have a little fun  
Cause I know that you're promised to John  
We walked behind a tree and she gave her lips to me  
Even though she was promised to John  
And I guess she's with him now she should be anyhow  
Cause she said she was promised to John
