

The Pit

Priest

[Verse 1]

I ascend from the shit
Up to the edge of the bottomless pit
Reborn, I am free
Like a fetus again

I learn how to breathe[Verse 2]

The darkness was a cocoon
Just like the moth, I escape the gloom
A sparkle deep within
Let out the flame that begot me to win

[Chorus]

There is no way to quell my desire
The energy inside the void
The fire[Verse 3]

Cast down from the skies
Carrying the weight of the world's despise
A downfall made me see

This hole gave birth to the preacher in me[Chorus (x2)]

There is no way to quell my desire
The energy inside the void
The fire[Bridge (x4)]

Come closer to me
Come closer to me

Come closer to me and be truly free

[Chorus (x2)]

There is no way to quell my desire
The energy inside the void
The fire
