

# Ford Econoline (Live on KEXP)

## Chuck Prophet

Ford Econoline  
(Prophet)She pulled over said, "Climb on in"  
I did what she said  
She turned the music up real loud  
It was The Talking Heads  
Didn't matter where we were going  
Made no difference to me at the time  
It takes me back when I hear that song  
Makes me feel warm inside  
Ford Econoline! Ever since the beginning of the world  
The beginning of time  
Somebody said that the road was his  
Somebody said, "No, it's mine"  
Some folks are born 'neath a sign on the road  
Close enough to turn and leave it all behind  
Fall together like the Rock Of Gibraltar  
Guitars and drums inside  
Ford Econoline! Ford Econoline Ford Econoline Chris-crossed the country in two tone job  
It was a 1985  
Mile after mile we was burning oil  
We couldn't keep it alive  
Laid out flatter than a Chinese rug  
When she went her way I went mine  
All these memories like dirty plates  
Stacked up in the sink of time  
Ford Econoline! Ford Econoline
