

# Away

## Mantra feat. Lydia Rhodes

The days were brighter  
Gardens more blooming  
The nights had more hope  
    In their silence  
    The wild was calling  
    Wishes were whispering  
    The time was there  
    But without a meaning  
    Away, away in time  
Every dream's a journey away  
Away to a home away from care  
Everywhere's just a journey away  
    The days departed  
    Gardens deserted  
    This frail world  
    My only rest ?

The wild calls no more  
    Wishes so hollow  
    The barefoot boy  
    Weeping in an empty night  
    Away  
    Cherish the moment  
    Tower the skies  
    Don't let the dreamer  
    Fade to gray like grass  
    No falling for life  
    A gain for every loss  
    Time gathered me  
    But kept me flying  
For this gift of dream, I must pay the price  
    With the loss of life's pleasures
