April'S Fool

Clarence Penn

There's no way I could ever leave her
I'm addicted to her love, can't break the tie
A victim of my own need and too far to ever be free
Everything she does I somehow justify
I'm April's fool
I play by her rules
She treats me any old way she wants to
Just as sure as clouds bring showers
And springtime brings May flowers
And a mountain breeze blows cool
I'm April's fool
Many times I've tried to live without her
Like a frightened runaway child, I always return
To the games she loves to play
Where she always gets her way
Although it hurts I never seem to learn
I'm April's fool
I play by her rules
She treats me any old way she wants to
Just as sure as clouds bring showers
And springtime brings May flowers
And a mountain breeze blows cool
I'm April's fool
Just as sure as clouds bring showers
And springtime brings May flowers
And a mountain breeze blows cool
I'm April's fool
April's fool
