

Let the Good Times Rock

Europe

Come on You say that you want me
I hope that you do
'Cause I tell me just where I would be in this world
Without someone like you When you say that you need me
Like only you can
Oh baby, you don't really know what you've done
To the heart of this man So baby tonight we will celebrate
And talk of the times till it gets real late
Yes baby tonight we'll appreciate
Just what we've got So let the good times rock
Oh when you squeeze me and say that you care
There's nothin' I know that could drag me away
When that feelin' is there Oh, the way that you move me
And makin' me feel
Well, I could have sworn that I lived in a dream
If it wasn't for real Oh, baby tonight we will celebrate
And talk of the times till it gets real late
Yes, baby tonight we'll appreciate
Just what we've got So let the good times rock
Yeah, let the good times rock Oh, baby tonight we will celebrate
And talk of the times till it gets real late
Yes baby tonight we'll appreciate
Just what we've got Oh, let the good, good times, oh yeah
Yeah, let the good times rock With all we've got
Ya, let the good, let the good
Let the good times rock
