## Oroku

(verse 1)

VINNY PAZYall mother fuckers woke a demon up

The bullets splatter through your spleen and guts

The whole click duckin they PO, they need to pee in cups

We murder shit like everything the Europeans touch

I dont even talk to mother fuckers that could lead the trust

We on our D and devils only deal with greed and lust

Feed an elephant with bear hands and take his lead and tusks

Anytime you hear a cop was murdered best believe its us

Jus Allah load the glock put em in norweigen dust

I aint i sucka i was born with hercules in us

Strangle snakes, dangle grapes fed by European sluts

Yall know where to come to when you need the fuckin trees and dust

Ayo D?? i need by ?? these fucks

I got the power to devour trees , seas and such

I got the power thats the caliber of jesus touch

It dont matter the caliber i proceed to rush

Vinny on a whole nother algebra than the Greeks could touch(verse 2)

D MAZLet me tell you lil somthin bout a nigga named Maz

Look in his eye you could see the evil if you high

You could notice a little nigga thats eager for the sky

Behind bars scarred like jesus when he died (when he died)

Nigga i was in the hole for a whole 6 months gettin high off the reefer thinkin why

Im with the roachs and rats hopeless and ?? line and line and the hole in the crack

Nigga i was in the hole tryin gettin my back, niggas snitchin and Ceo tryed gettin my bag

But i dont give a fuck about a snake or a fag a hater id rather see Adolph paid off, laugh

This is real life fuck gettin paid off rats

And sellin my soul to the devil gettin paid off rappin

Mozerade, Maz , Pazienza clap boys ?? back man you still screamin duffle bag boys(verse 3)

Jus AllahI have lived a century

Ive tapped into my 6th sensery

I am a potential enemy

My entire inner chemistry, every inch of me, is divinity

Unequivically supremacy

I am undesired energy

Sends friendly, sends empty

Show the prince of peace no clemency

give him an extremety of insensitivity

Let his kid and ministry witness his disassembly

I just lost sufference, undestructive, unproductive, tussid  
Not much substance, thuggage  
Above judgement  
Unaware of any error of delt  
Where it counts im a fair amount of paramount  
I am body a monopoly of ungodly  
The ???????  
My apology, arrid, insencarity, carity, buried generic its hilarity
