

# Never Been Rocked Enough

**Delbert McClinton**

I watch you come in here  
Night after night  
You sit over in the corner  
Where there ain't no light  
You got a beautiful smile  
But you don't have fun  
Somethin' about you baby  
Been left undone(Chorus)  
You've been over here in the dark so long  
I ain't no doctor, but I know what's wrong...  
You never been rocked enough  
You never been rolled just right  
You act tense and nervous  
Honey, you're too uptight  
You never been rocked enough  
You never been rolled just right  
My time is your time baby  
And baby I've got all night I don't pull no punch  
I don't play no games  
It ain't none of my business  
But it seems a shame  
Now I can't hold back  
I got to speak my mind  
You look like a woman  
That needs a real good time(Repeat chorus)
