

# Never Never

## The Tontons

I used to wake up feeling every little thing, but never love  
Never love  
And  
I used to walk around  
Feeling every little thing  
But never love  
Never love  
And  
You owe me  
Something kind of wonderful  
I have never  
In all my lifetime  
Been made such a fool of by anyone  
Anyone  
No one, no one, no one  
I used to wake up feeling every little thing  
But never love  
Never love  
And you never came around  
Never came into  
Never held my hand in front of none of your friends  
No not anyone  
You owe me  
Something kind of wonderful  
I have never  
In all my lifetime  
Been made such a fool of by anyone  
No one, no one, no one  
And you never came around  
You never gave a damn
