

# Whispers

**Nitepl**

Where'd you get to  
Where'd you go  
I can still  
Feel all your souls  
Hidden in the walls and words  
Drifting through melodies unstirred  
I can't barely hear you speak  
Through the cracks and through the leaves  
Oh remember when we were young  
Conversations that was fun  
All the laughter all the cheers  
Drifting through a melody of tears  
Waiting now just to hear your voice  
Through the echos of a choice  
Now your words are only whispers
