

# Only With You

Roy Orbison

I can paint a sunset across the sky of blue  
Only with you, only with you  
I can be a master at anything I do  
Only with you, only with you I found the end of the rainbow  
My golden treasure too  
Only with you, only with you The sun looks good in the morning  
And I love the night time too  
Only with you, only with you All my world would end, dear  
My rising star would fall  
If ever I should lose you  
I would be nothing at all
