Reclamation

Tribal Theory

V1:
Remember the time when things were easy?
Making music was all for fun
Completed feeling
Then egos got in our way
Trading the passion for pay
Chasing the flashing lights
Came time to realize
Opened up all our eyes
We had it all wrongPre Chorus:
Extra Extra
Let me tell ya bout it
We done been around the world
We can show ya how we got it
Gonna take it
They said fake it til we make it
But we dug so deep
Cause we had enough of waitingWe say, Extra Extra
Let me tell ya bout it
We done been around the world
We can show you how we got it
Now its our turn
Time to go in harder
Just to push a little farther
Prove it nowChorus:
This is a rec, rec, reclamation
This is a recla, recla, reclamation x2V2:
Standing here at the edge of it all
Seen the pain, seen the struggle
Through the heartache and the trouble
There's no one left to blame
Wasted time is such a shame
But things are changing now
The wind and waves are crashing down
On all of those who had a doubt
So watch us prove them wrong
And hear the words within this song
And we will chant them nowPre Chorus*Guitar Solo*Pre ChorusChorus
