

White Like That

Filter

One thing is for sure
I don't need it
Makes my life a war
What a bore Don't you understand
It wasn't even my plan
I guess you just can't see
What you do
When you blame it all on me White like that
I'm white like that
It's all the same
White like that
I'm white like that
It's all the same Said one thing and mean another yea
Who'd you gonna lose?
Who'd you gonna choose?
What do you think I'm gonna do?
What you are thinking? White like that
I'm white like that
It's all the same babe
White like that
I'm white like that
It's all the same yeah
Oh, who's gonna lose?
So who's gonna lose? They call me white trash
They call me white trash White like that
I'm white like that
It's all the same
White like that
I'm white like that
It's all the same game
So who's gonna lose?
So who's gonna lose?
So who's gonna lose?
So, so who's gonna lose?
Who's gonna lose?
