

Sex on the Radio

Smokey Robotic

She's got a smile so sweet
It's every little thing
For my head down to a beat
Out of the magazine
And I see you on the TV
I love the song she sings
'Cause when I turn around
It's like she singing to me
And every word she means
Like it could be about me
She's sound to me
She's sound like sex on the radio
I love to hear her scream
And when I push play
She's screaming in stereo
She's sound like sex on the radio
She put sex on the radio
Sex on the radio
I knew that we would meet
I wanted those source they do for the radio
And when she look at me
All I said was hello
I took around to Inn
'Cause we were in the city
That neither one of us knew
We never went to sleep
'Cause when the sun came up
We knew that we would have to go
She's sound to me
She's sound like sex on the radio
I love to hear her scream
And when I push play
She's screaming in stereo

She's sound like sex on the radio
She put sex on the radio
Sex on the radio
She's sound like sex on the radio
She put sex on the radio

Sex on the radio
I've got to admit, this feeling's a cheat
I don't wanna stop and she don't want me to quit
But she gets a little nervous [Incomprehensible]
Scare what they would say
What they would talk about if they knew
Heard her sing a song
Knew that she would write about it
It's all in the magazine
I knew that she could keep it quiet
Keep it in the sheets
The radio, the beats
Between you and me
We'll flow away back here
She's sound to me
She's sound like sex on the radio
I love to hear her scream
And when I push play
She's screaming in stereo
She's sound like sex on the radio
She put sex on the radio
Sex on the radio
She's sound to me
She's sound like sex on the radio
Feels like to me
She's sound like sex on the radio
