Light of Day (TLA Mix)

Babel Fish

Flat on my back
With you beside me
I cannot belive the things that I see
When I'm in your arms
The world stops spinning aroundRub on the lamp
'cause I've been locked in
All sweaty and damp
When you start wishing
You've got all the three
That's us, it's you and meYou say come on
We've been around here for too long
Our time is now
We're gonna make it there somehow
And I say ok
I'll risk the night to see the light of dayThen I become
A doubting thomas
I'm not realy sure
The stakes become us
But you are the calm
My doubts are all crushed in your palmYou say come on...Feeling the blood running through me
Feeling my life running freelyYou say come on...When you go out
I'm still in bed
But you left me a note
The mirror's red
You're not reely gone
Your writing tells me I'm the oneYou say come on...
