

I Ain't Scared

Carolina Rain

Angles and demons it's all make believe Search for the truth and tell me what you see

Don't try and shit me and tell me you're content

You live your life in fear of death

I ain't scared to die, fuck it I ain't scared to die, scared to die.

It is difficult to free fools from the chains they revere

It is difficult to free fools from the imprisonment, minds in chains.

Truth be told the real demons walk the earth, you & I

Truth be told the real demons walk the earth, me & you
