

# Don't Let Go

## Loverboy

Does anybody out there  
Ever want to stand up  
And shout it out  
Tired of going nowhere fast  
Gotta turn your world about  
You know you have to keep on tryin'  
Cause sooner or later  
You get what you want  
Show 'em what you're made of  
Oh, it's just a matter of time So tell me can you feel it  
Can you touch it  
If you feel it in the palm of your hand  
Don't let go Ain't it funny how the grass looks greener  
On the other side of town  
Don't you ever get tired of feelin'  
Like the whole world is bringing you down  
Now's the time to get things movin'  
Follow what you're feelin'  
Prove that you can do it  
Show what you believe in  
Ohh, it's just a matter of time Tell me, can you feel it  
Can you touch it  
If you feel it in the palm of your hand  
Don't let go Tell me, can you feel it  
Can you touch it  
If you feel it in the palm of your hand  
Don't let go I know where you can get it  
If anybody wants it  
I know it made you feel so right  
All you gotta do is stand up and be counted  
Show me that you're out there tonight Can you feel it  
Can you touch it  
If you feel it in the palm of your hand  
Don't let go Come on  
Can you feel it  
Can you touch it  
If you feel it in the palm of your hand  
Don't let go Tell me, can you feel it  
Can you touch it

If you feel it in the palm of your hand  
Baby, don't let goDon't let go  
Don't let go  
Don't let goIf you feel it in the palm of your hand
