

Night Is Young

Empires

Visions of you, visions of me
Everything we wanted
I wanna be frozen in time
Forever in this moment
How you wanna live? What you wanna feel?
Don't you know you make me feel so alive
What you wanna do? What you wanna feel?
I know you wanna live your life right
The night is young and so are we
We can do anything we wanna, baby
The night is young and so are we
We can be anyone we wanna, baby
'Cause we are
Free, free, free, free, free, free
And life is
Free, free, free, free, free, free
Don't worry baby, I'll be here
To make sure you're feeling fine
To get let go of all your fears
'Cause you're not going home tonight
How you wanna live? What you wanna feel?
Don't you know you make me feel so alive
What you wanna do? What you wanna feel?
I know you wanna live your life right
The night is young and so are we
We can do anything we wanna, baby
The night is young and so are we
We can be anyone we wanna, baby

'Cause we are
Free, free, free, free, free, free
And life is
Free, free, free, free, free, free
Baby it's all good
(Baby it's all good)
When I look at you
(When I look at you)
And I see that you
(And I see that you)

Made it through everything
(Made it through everything)
After all of the ups and downs
(All of the ups and downs)
We figured it out
And I will know how to ride it out
The night is young and so are we
We can do anything we wanna, baby
The night is young and so are we
We can be anyone we wanna, baby
'Cause we are
Free, free, free, free, free, free
And life is
Free, free, free, free, free, free
Free, free, free, free, free, free
Free, free, free, free, free, free
Free, free, free, free, free, free
...
