These Old Feelings

Madcap

These old feelings make you think
These old feelings make you drink
These old feelings keep the time ticking awayThere's always something in my head
Telling me I should be dead
Then I realize that this time's ticking awayCome on now sing
You've got a friend in me
Turn to me now, we'll make it somehow
For times are tough and I won't let you downThese old feelings make you think
These old feelings make you drink
These old feelings keep the time ticking awayI feel strong to what I say
Never sell you the wrong way
These old feelings, they will never go awayCome on now sing
You've got a friend in me
Turn to me now, we'll make it somehow
For times are tough and I won't let you down
