Get Away

Danny Gokey

Well, I gotta get away
Just skip town with the top down
And drive all night
High time that I kick back and I lose track
Get out of sightYeah, I'm caught in a state of emergency
I'm going down if I stay
Gotta get awayFeels like my head's in a vice
The big man standing there screaming
This pressure, this ride's breaking my mind
And I know I'm losing it
I'm done, I'm out, let me get back to
What this life is aboutWell, I gotta get away
Just skip town with the top down
And drive all night
High time that I kick back and I lose track
Get out of sightYeah, I'm caught in a state of emergency
I'm going down if I stay
Gotta get awayYeah, gonna find me a sunset
And a cold drink on the beach somewhere
Get lost in a warm breeze with a sweet thing
Just get me thereI'm gone, no doubt
Gotta get back to
What this whole thing's aboutWell, I gotta get away
Just skip town with the top down
And drive all night
High time that I kick back and I lose track
Get out of sightYeah, I'm caught in a state of emergency
I'm going down if I stay
Gotta get awayCall me a missing person
I really like the sound of that
Believe me I'm never coming back
Gotta get awayYeah, wanna get away
Skip town, ohh, wanna drive all night
Yeah, wanna kick back and lose track
Get out of sightYeah, I'm caught in a state of emergency
I'm going down if I stay
Oh, I'm going down if I stay
Wanna get awaySaid I got to, got to get away from here
I got to, got to get away from here, oh, ehOh, this is what I'm gonna do

I'm never, never, never coming back, oh
Never, never, never coming back, oh
With me, I'm never coming back, ehNever, never, never coming back, oh
Never, never, never coming back, noI'm leaving, I would never
Ne-never come back from here
Just see me, I'm gone
Listen to me, help me sing, ohSaid I wanna get away from here
Wanna get away from here
From here, here
Get away
