Fly Like a Little...

Backyard Babies

Coming down on a sunset street
I live my life with a silver needle
Feels like I falling
`Cause I trapped in a ball and chainComing down with a silky steel
The worst kick I took was when you hit my wheels
I alive going down to paradiseLittle sister won you follow me down
Fly like an angel on the seven seas
Baby, can you see that I born to looseFly like a little dove, dove, dove
And I under your skin
I wanna be your man
Come on and show me what you can doWell, I lost in your arms again
Take me home to your mamas bed
My little sister cocaine
Won you come and love meSuperman came and saw me chained
I called the devil by his name
And felt your blood in my veins
It what it takes to be your man
To be your manLittle sister won you follow me down
Fly like an angel on the seven seas
Baby, can you see that I born to looseFly like a little dove, dove, dove
And I under your skin
I wanna be your man
Come on and show me what you can do
What you canLittle sister won you follow me down
Fly like an angel on the seven seas
Baby, can you see that I born to looseFly like a little dove, dove, dove
And I under your skin
I wanna be your man
Come on and show me what you can do
I wanna be your manCome on and love me
I wanna feel you
I wanna be your manCome feel
