

Out Here (prod. Louis Bell)

Mike Stud

(Oh baby) Do you like the way I make you feel or nah?
Reaching through my pants, what's your hands feeling on?
Girl I like that shit, invite that chick
Yeah girl you gon' ride with us
Know they said it's last call, but girl that don't apply to us
I'm smiling 'cause about to go down, no cellar
Met her out in Cali, Coachella
Said she wanna hang out again
I said don't bank on it, no teller
'Cause I heard about you, yeah I heard about you
I know how you get down
Every time a star come through, you the one they with when they in town
'Cause I heard about you
She sniffing that Coca-Cola
Head spinning round like a roller coaster
Got some head, I'm supposed to show ya
Every time I spit girl it's Motorola, got bars like "brrr!"
Bitches call the celly up, do this on the regular
And they followed us from the show
Just to find out where the telly was, real shit I'm out here
(I'm out here)
They know us and they showed up 'cause we out here
I'm out here, I'm fucking out here (I'm out here)
They hate us but they stay up 'cause we out here (I'm out here) I'm out here, we out here (I'm out here)
I'm out here, we out here (I'm out here)
You can act like you don't know
But when I ask if you down to roll
Girl I know you are, I know you are
I know you are And they say I can't believe
How big you're getting, well no shit
If you don't like the cards you were dealt, then go fish
And that's what I did, so get off my dick
And if you're dope as me
Why you ain't on tour where you supposed to be?
Hanging on your sister's wall where the posters be
That's me, don't compare yourself to what you hope to be
Fuckboy, mad 'cause your girl tryna fuck boy
Get off my nuts boy, feel like I was born to do something grande
Now I'm out west, Kanye Delonte

And I'm gone off Bombay, today in the life
Same people used to hate and now they saying I'm nice
Fuck that, used to get to class on a bus pass, what's that?
See I came up but listen
Last time I changed up I swear I was pitching
Still the same dude, just a different view
And Blue's right here, he's just with a couple bitches in a different room I'm out here
(I'm out here)
They know us and they showed up 'cause we out here
I'm out here, I'm fucking out here (I'm out here)
They hate us but they stay up 'cause we out here (I'm out here) I'm out here, we out here (I'm out here)
I'm out here, we out here (I'm out here)
You can act like you don't know
But when I ask if you down to roll
Girl I know you are, I know you are
I know you are (I'm out here)
(I'm out here)
