

# Worlds Apart

[Molly Nilsson](#)

I felt so lonely the other night,  
like a tourist my whole life,  
you're the suburbs of my mind  
And I visit all the time. When you travel in time,  
Leave nothing behind,  
Nothing they could find. I always felt so close to you,  
Although we're worlds apart. Make it on your own,  
Turn of your phone,  
No fear will find you here,  
We're worlds apart. Worlds apart. Random cities and random lives,  
Does anyone belong?  
And there ain't no home  
Run coming at The end of the song Humanity forever,  
Let's pretend.  
We're all in this together till the end. Nobody's gonna change the world ,  
Nobody's gonna change my mind,  
We're worlds apart, Worlds apart. I watch tv and fall asleep,  
The show continues inside of me,  
A missing person's smiling face,  
She disappeared without a trace. Somebody's looking for you,  
Someone out there knows the truth.  
Somebody I'm dying to see,  
Somebody out there waits for me.  
Worlds apart. Worlds apart. Worlds apart.
