

# Abroad

## Savino

Abroad

Let me see your passport

Please take off your glasses

Gotta get through customs, taxi, baggage

You know you still love me

Sicily to the U.K

Keep them hands up everywhere follow me I'm about to take you abroad

Show up in your town

Second that I'm Touchin down

Go someplace we've been

Every time I'm with my friends

Sexy men

Whisper foreign in my ear

She's so hot

You so naughty come on show me what you got

What you got

Looked in the mirror today

Thought I had so much to say

But now that I'm face to face

I feel like runnin away

(I need a)

think I just I need a getaway

time for a break a holiday

time that I make my great escape

I need it now

I need it today

I need it today

Don't know where I'm goin but I know I'm outta here

Don't know where I'm goin but I know I'm outta here

Don't know where I'm goin but I know I'm outta here

I'm goin ABROAD? I'm goin ABROAD..

I don't speak the language

But they know my name here

Frequent flier mileage

Platinum next year

No fear

Bonjour in France

Keep my head wrapped up in Hermes

Tropical destination  
Get my rest and my relaxation abroad  
Show up in your town  
Second that I?m Touchin down  
Go someplace we?ve been  
Every time I?m with my friends  
Sexy men  
Whisper foreign in my ear  
She?s so hot  
You so naughty come on show me what you got  
What you got  
Today  
I need a change of pace  
To see some different faces  
I need to get away  
I need a break from u  
I need a break for me  
Gimme a break from here  
Somewhere that I can clear my head  
I?m goin abroad  
I?m goin abroad
