

I Dream of Crystal (Steve Lawler Remix)

Maps

So, let me begin with
Laying down the state we're in
With the pills and the gin
I can handle 'bout anything
But this is out of control Do what you like to me
But please, don't hurt her man
'Cause I will hit you, hard as I can
But that ain't really the plan you see Please, don't get me wrong
But you can't knock
What you've never done
It ain't always fun
But at least you'll be living some So get the fuck off my case
Yeah, she is a legend, man
I don't doubt that
And I will screw it up
I'm used to that
